Office Action Summary	Application No. 10/811,052	Applicant(s) TUTTLE, JEFFREY JOHN-CARL	
	Examiner Stephen L. Blau	Art Unit 3711	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-2 and 5-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 5 are indefinite in that the statement "not a continuous through hole" does not make sense. A through hole by definition goes all the way through an object the hole is in. It would make more sense to state "space is not a through hole but rather disrupted by either a thin wall of material or disrupted by a partial or full filling of the of the space with a material ...".

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jackson (6,431,995) in view of Saso.

Art Unit: 3711

Jackson (6,431,995) discloses a golf club (Col. 1, Lns. 9-12) having a head with a hosel (12) extending generally upwardly from the heel end (Fig. 1), a hosel having at least one reinforcement bridge in the form of the upper span (30) of material extending out from the hosel (Figs. 1-2) to the main body creating a roughly cylindrical space (32) underneath the reinforcement bridge filled with less structurally sound material (32) such that there is not a continuous through hole (Fig. 3).

Jackson (6,431,995) lacks a hosel having a generally upwardly open hosel bore. Saso discloses a hosel having a generally upwardly open hosel bore (Figs. 2, 5). In view of the publication of Saso it would have been obvious to modify the club head of Jackson (6,431,995) to have a hosel having a generally upwardly open hosel bore in order to secure a shaft inside the bore when assembling a club.

5. Claims 2 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jackson (6,431,995) in view of Saso as applied to claims 1 and 5 above, and further in view of Jackson (5,695,409).

Jackson (6,431,995) discloses a bridge (30) extending from a hosel to an upper surface of a head (Figs. 1-2) in order to enlarge the sweet spot (Abstract).

Jackson (6,431,995) lacks a wood type head. Jackson (5,695,409) discloses a head having a bridge (24) creating a space (20a) to enlarge the sweet spot (Col. 1, Lns. 40-45) including a wood type head (Col. 2, Lns. 58-67). In view of the patent of Jackson (5,695,409) it would have been obvious to modify the club of Jackson (6,431,995) to

Art Unit: 3711

have a wood type head in order to utilize the advantages of filling the cavity of Jackson (6,431,995) for a wood type head.

Response to Arguments

6. Applicant's arguments with respect to claims 1-2 and 5-6 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen L. Blau whose telephone number is (571) 272-4406. The examiner can normally be reached on Mon - Fri 10:00 AM - 6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eugene Kim can be reached on (571) 272-4463. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
